

RKS3030D DC regulated power supply

제품특징

RKS series adjustable DC switching voltage regulated power supply

Product introduction

RKS series adjustable DC switching voltage regulated power supply is designed for the laboratory, school and the production line specifically, the output voltage and output load current can be adjusted between 0 and the nominal value continuously. The stability of output voltage power supply and ripple coefficient is very good and have perfect protection circuit. It can work with full load for a long time. And it can be used as a regulated power supply also be used as a stabilized current power supply.

This series of power supply is a switch type DC regulated power supply, it has small size, light weight, high efficiency, low fault rate of continuous work. It is the first choice of the use unit which has requirement with power efficiency and weight volume.

Application area

General testing of R&D laboratories

Quality control and inspection

Automobile electronic circuit test power supply

Industrial control and automation

Post and telecommunications and base station

Motor aging test

Semiconductor low power test

Battery pack charging test

LED lighting test

Technology research and development

Test teaching experiment

Performance characteristics

Easy to operate and carry

High precision, three, four bit display

Fixed output for 3.3V/5V1A

Switch switching for 110V/220V

Stable load/linear rate of adjustment

Heat radiation fan

Multiple protection, safe and durable

제품사양

No	Type	Output mode	Voltage and current	Display mode	Display resolution	Assortment	Output power
1	RKS3003D	Single circuit	30V/3A	Three digit	10mA100mV	Switching power	90W

				display		supply	
2	RKS3005D	Single circuit	30V/5A	Three digit display	10mA100mV	Switching power supply	150W
3	RKS3010D	Single circuit	30V/10A	Three digit display	100mA100mV	Switching power supply	300W
4	RKS3020D	Single circuit	30V/20A	Three digit display	100mA100mV	Switching power supply	600W
5	RKS3030D	Single circuit	30V/30A	Three digit display	100mA100mV	Switching power supply	900W
6	RKS3050D	Single circuit	30V/50A	Three digit display	100mA100mV	Switching power supply	1500W
7	RKS30100D	Single circuit	30V/100A	Three digit display	100mA100mV	Switching power supply	3000W
8	RKS6010D	Single circuit	60V/10A	Three digit display	100mA100mV	Switching power supply	600W
